#### TROUP'S DEFENSE.

The Rear Guard Men Not at Fault-Stanley Accused of Gross Deception.

Naw York, Nov. 3 -J. Rose Troup's book, "Stanley's Rear Column," was published in Loudon to-day. In the preface he indicates the spirit in which he wrote the book, as follows:

"When fiv- offic rs, almost total strangers to each oth r, are sbut up for a cousiderable length of time in a camp in Central Africa, cut off from communication with the onter world and deprived of the ordinary occupations of life, it is not re markab's that a certain amount of disagreement should arise, but I see no resson why such matters abould be made public property, so I have excused from my disty reference to affairs of a purely parsonal nature, as well as others that I thought it best to omit."

Mr. Troup devotes his first chapter to an answer in detail to the charges that Mr. Stanley has brought against the rear columo. Lientenant Troup says: "It is i ndeniable that Stanl y I ft the im, r ssion upon Maj r Bariteint that he expected to be back to five months, b couse in a tett r to the committee, dated August 15, 1887, seven weeks a ter his leader departed, he wrote that he would be compeld to stay at Yambuya till November, wh n Stanley expected to return 1 Ad led to this written ev dence we have a conversation report d by Major Baritelet to have taken place between Mr. Stanley and himself. We may be permitted to rely on the reported conver ation, as Mr. Stanley bases so much upon what he remembers saying to Major Barttelot

"The conversation at Yambuya was described most graphically by the M jor, who Baid: 'As Mr. Stanley passed out of that gate his last words were: "Go d-by, Major; I shouldn't be a bit surprised to see you here when I r turn. I shall be away five morths, giving muself three months to go up to Kasa 1 and two to return. So I wast be back to November "

"This was sad in Dr Jamison's pres ence, and he himself rep ated it to us almost word for word. Bs balare to commusicate with us was a grave misforinae. We were left to surmise his movements, basing our conj ctures on his own calculations."

Further on Troop says. "What, then, would have happened had we marched without Tippu Tib's assistance? Could any one reasonably expect that we would have enceeded in those marches, back and forth. Must we then be condemned because. in obedience to Mr. Stanley's instructions, we remained at Yambuya rather than throw away our loads, eventually still obeying his instructions, when Tippu Tib's men camand Major Barttelot marched with what he could carry; can be, after recalling this disaster that occurred when he had the benefit of the assistance of Tippu Tib! 400 Manyuemas, still hold that we could have done better wilb our mise abte 175

"Now, without waiting for the reports o all his officers, Mr. Stanley foliminate accusations against them. He receives m refutation of these and then repeats then in his book, saving his questions hav never been answered. I remonstrat d with him about these misstatements, and the he turns upon me with specified sers, many of which I have already proved I here did, and for others I had no responsibility

"He even goes so far as to blame me fo events that had happened subsequent to my departure from Yambuya. He would have done we'l not to have made this charge, as he, in truth, is more responsible for them than I am. He, the leader of the Vanderbi ts will acquire control of the Cenexpedition, though absent, is more guilty. trail Pacific, which, with prospective Eastif guilt there is, than I, a subordinate who was also absect."

### STANLEY'S IGNORANCE.

Englishman.

A correspondent of the London Truth sends the following: "A few days ago I was standing by an American gentleman, when I expressed a desire to know which point was north. He at once pulled out his watch, look d at it and pointed to the north. I asked him if he has a compass attached to his watch." "All watches," he replied, "are compasses " Then be explained to me how this was. Point the hour hand to the son, and the south is exactly half way between the hour and the figure XII on the watch. For instanc, suppose that it is 4 o'clock. Point the hand indicating 4 to the sun and II on the watch is exactly south. Suppose that it is 8 o'clock, point the hand indicating 8 to the snn, and the figure X on the watch is due south. My American friend was quite surprised that I did not know this. Think ing that very possibly I was ignorant of a thing that every one else kness, and bappaning to meet Mr. Stanley, I asked that this simple mode of discovering the points of the compass. He said that he had never heard of it

### Closing Notice.

#### Rumored Railroad Change. The latest railroad rumor is that the

ern connections, will give them a through line from ocean to ozenn, with San Francisco as the Pacific terminus. This may be all sack, like so many other stories of The Compass in the Watch-A Surprised railroad building and con-oli lation. A little while ago the Union Pacific people professed to be entirely sutisfied with their truffic arrangement with the Central Pa offe, and not de irons of building to this coast. This statement was made in connection with the report that the company would build through to California from some point on the Oregon Short Line. crossing the appunishes back of Chico and making a councction with the Donaburoad. That, however, was a very different matter from the present outgiving, which simply involves a consolidation of existing lines in a single interest. The proposed move would at once make San Francisco a competing restroad terminus, with the prospect of a third competitor when the Santa Fe builds to San Francisco.

### Opinion of an Expert.

Inyo Independent: Mr. H. J. McLerie. the gentleman who recently came from San Francisco to examine the marble quarry to the interest of D O Mills, appears to have been entirely satisfied with what he saw, ! emment traveler whether he was aware of In the hearing of the editor of this paper te said that in his judgment the quarry will supply the finest building material in the world. The presence of even a small proportion of fron in building stone is very objectionable, as the iron rusts and ruius the appearance of a polished surface by its ugly blotches. The Inyo murble is free from iron, and will never be injured in that way. Mr McLivie end the quartity, quality and variety of marble that con be aus plied from the Inyo quarry exceeds by far what he had ever expected to see.

> The Gazette is still vomiting. The nomination and election of Mr. Foley was too much for its delicate stomach.

A sea-serpent, 108 feet long, was seen to coal final up in slippery folds on the coast of Floridi last month. Three reliable persons saw this creature distinctly.

Reader, the shove is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr Flerce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the longs, which is really scrothious disease. If this wonderful medicine does not do all "me recommend, when taken as directed, we will cheerfully and promptly return all money paid for it. Can any offer be more generous of fair? No other medicine possesses smelicent power over that fatal malady—Consumption to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alterative, or blood-cleanser, known to medical science, but also possesses superior untritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and fiesh. For all cases of Bronchial, Throat and Lung Discasses, accompanied with lingering coughs, it is absolutely uncounsed as a remedy. For Weak Lungs, Spitting of Blood. and kindred affections, it suppasses all other medicines.

Township Officers.

The following are the total votes for the Reno township:

 A MEXICAN BULL PIGHT.

Death in the Arens-An Enraged Sens Gores a Matador-The Mob Thirsts for More Gore.

CITY OF MEXICO, Nov. 3 .-- In Colon a ring bullfight was given, at which more than a thousand speciators were present. Posters had announced that the celebrated Guaname bulls would furnish the sport, with Zozato and Ferrar as first and second

The stock from the first fought bad!y for the fighters, and while Z 22'o was attempting to kill his third bull he was caught on its horne, spun as though he was a top and tossed in the air. He fell to the ground and was again gored by the infuristed animal. He was taken from the ring for dead. but later he re-entered the ring, though he was not permitted to fight, and while retiring dropped in a faint. It was found that he had three deep wounds, which it is believed will be fatal

Five more bulls were let into the arens, but none tought well. The audience became enraged and fights were started on the sunny side of the arena among the spectators. Pieces of wond were thrown into the ring from this side, which started a general demolition of the plaza. After all the chairs had been pitched into the arena the railings were wrenched off and thrown on the heads of the police in the alleyway. The bull fighters, fearing they would be mobbed, escaped from the areas and sought safety in the streets.

The police endeavored to quiet the tumult, and used their clubs freely, but their efforts proved futile, as it was threatened that if they did not desist they would be horled into the ring. At the commencement of the disorder women, children and timid men rushed into the passageways to escape into the street, choking them and cousing a partial panie, in which, fortunately, nobody was hurt.

An American tourist ran over the heads of others, shouting that there was another revolution in Mexico, to the great amusement of the others. American ladies were carried out in a fainting condition by the Mexican Chief of Police, who was present and attempted to quiet the disturbance.

After the chairs and railings had been thrown into the arena the spectators started in to harl doors and tear out the sides of the ring. For over an hour the work of destruction of the plaza continued, and the speciators only stopped when they became

A year ago Pasco plaza was partially destroyed owing to the same cause, a poor fight. It is stated that the Impreserso has been fined \$2,500. After the Judge had left the plaza the crowd destroyed his box. The plaza is a skeleton to-day.

A FAITHFUL WIFE.

Ex-President Pierols Walked Out of a Peruvian Prison, Leading His Own Children.

New Yose, November 3 -Further details of the escape from prison in Lime, Peru, of Dr. Nicholas Pierols, ex-President of Peru, have just reached this city. responsible for the loss of the last few battles of the war between Bolivia, Peru

panied by her children, came as usual to the prison. The jailer did not notice that she looked a little more robust than usual and that she carried a small basket. She the well-pleased andience never would tire remained for supper under the plea of illness. At 7:30 the children were led out by a person whom the jail officials thought was was in bed. At daybreak the next mornand compass. She certainly achieved high ing all the prisoners turned up except success in the estimation of her andience Pierola. His cell was visited and his wife was found snugly wrapped up in the bed-

> Pierola said that after escaping he went remained secluded for some time. He then caught a Pacific Mail steamer and here nothing has been heard of him. It is believed that he has gone to San Francisco.

# 250 Beautiful Lots For Sale!

CHANCE FOR AN INVESTMENT AND A HOME

# THE MOST LOVELY PORTION OF RENO.

Facing the Truckee -The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The propretor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the fract, which is smuated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the \_ghest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots on property in hand, of the same cost, and expecare  $50 \times 140$  feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

# RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroal, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$200,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and Weekly Nevada State Journal and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposi-Is Supported by the Richest

The State Fair is always held Farming Country of Nevada, at Reno.

# RENO

en Oregon.

# RENO

Has no equal in Nevada or California for salubrity of elimate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even is the Educational Center of Neand healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas Is the Cheapert on the Coast for all purposes. The streets of Reno are lighted by electricity.
